

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ### INSPECTORS:

HON. W. S. WILCOX, PRESIDENT, appointed 1875, ADRIAN.  
HON. L. W. LOVELL, . . . . " 1877, KALAMAZOO.  
HON. A. A. BLISS, . . . . " 1879, JACKSON.

---

### OFFICERS:

WILLIAM HUMPHREY, . . . . . WARDEN.  
J. D. HINCKLEY, . . . . . DEPUTY WARDEN.  
FRANKLIN S. CLARKE, . . . . . CLERK.  
REV. GEORGE H. HICKOX, . . . . . CHAPLAIN.  
E. L. KIMBALL, . . . . . PHYSICIAN.

## INSPECTORS' REPORT.

---

*To the HON. CHARLES M. CROSWELL, Governor of Michigan:*

The Inspectors of the Michigan State Prison herein submit their annual report for the year ending Sept. 30, 1879, as required by section No. 16 of Act No. 213 of the Session Laws of 1875. The report of the Warden, giving more fully the details of the workings of the prison, as required by said act, is attached and made a part of this report. We also call attention to the reports of the Chaplain and the Physician.

It gives us pleasure to state that the affairs of the prison during the past year have prospered. The efforts of the Warden, cheerfully seconded by those under him, in the direction of improvement have been unremitting, and with encouraging results. Laboring under many disadvantages from the want of sufficient cell-room, it is only by constant and untiring vigilance that a violation of necessary prison rules can be prevented. It is a matter of congratulation that no serious insubordination has occurred. We think the convicts feel that the kindly hand of authority is so firmly upon them that no scheme of revolt can by any possibility be carried out, and no plan to avoid conformity to prison rules escape detection. Such plans among the more vicious are frequently formed, and as often discovered. It is true that a large majority of the convicts, from various motives, uniformly obey the rules,—some undoubtedly from an honest desire to do right, and the selfish instincts of others teach them that this is the best policy.

### EARNINGS.

The pecuniary results for the year are as favorable as we could have expected or even hoped for. The general derangement of business throughout the country for some years past has almost as a matter of necessity had an unfavorable effect upon the earnings of the prison. As it is the settled policy of the State that the prison shall be made as nearly as possible self-supporting, it has been one of our constant aims to secure this result. But in consequence of losses from the failure of contractors (which have been before reported), and the impossibility during much of the time of securing profitable employment for our surplus men, we have not been able with our earnings at all times to meet the increasing expenses of the prison, and in addition to render a surplus to the State. The general revival of business throughout the country has also had its effect upon the industries of the prison. The state of depression, discouragement, and doubt as to the future that for a time existed has given place to confidence, and we fully believe that hereafter the prison will more than meet all its current expenses with its earnings. In connection

with the statement of the earnings for the year given below, it is proper to say that it appears from the books that the surplus over expenses has accumulated within the last half of the year. The proportion of earnings to expenses is as large or larger at this time than at any time during the year, which we take as an indication of what may reasonably be expected for the year to come.

The contractors report a steady demand for their products beyond their ability fully to supply, and they require an increasing amount of additional labor beyond what their contracts provide for; and even if no further contracts for labor should be made, the prospect now is that all the prison labor can be profitably appropriated. Unless we shall be disappointed in this, although expenses are increased by the appreciation of most articles of consumption, we confidently expect the prison will not only be self-supporting, but that a handsome sum will be paid into the State Treasury.

The net earnings for the year were.....	\$88,355 23
Expenses .....	84,095 81
Surplus of earnings over expenses .....	\$4,259 42

#### LAND PURCHASED, ETC.

The first section of Act No. 123 of the legislative session of 1879 is as follows:

*The People of the State of Michigan enact, That the sum of twenty thousand and eighty dollars be and the same is hereby appropriated from the general fund for the year eighteen hundred and seventy-nine, to be expended under the direction of the Inspectors of the State Prison at Jackson, for the purpose of repairs, additions, and improvements therein, as follows: For the purchase of two new boilers and resetting the old ones, five thousand dollars; for completing the extension to the agricultural tool shop, two thousand dollars; for new locks on one block of cells, thirteen hundred and twenty dollars; for one hog-pen, one thousand dollars; for new windows in west wing, seven hundred and sixty dollars; for the purchase of twenty-seven acres of land adjoining the prison, ten thousand dollars: *Provided*, That said land shall not be purchased, or said last named sum be drawn, except after the Governor and Board of State Auditors shall certify to the Inspectors of the prison that coal in paying quantities has been found on said premises, and that it is advisable to purchase the same: *And provided further*, That the said sum of ten thousand dollars shall not be drawn from the Treasury nor used for any other purpose if they do not so certify: *Provided further*, That no money shall be expended in exploring for coal on said premises until the owner or owners of said land shall enter into a contract of sale therefor, with sureties satisfactory to the Governor and Board of State Auditors, conditioned that said owners will execute a good and sufficient deed or deeds of said land to the State of Michigan whenever requested so to do, at a price not to exceed ten thousand dollars.*

By Act No. 49 of the same session the sum of five thousand dollars that was appropriated at the session of 1877 for the purpose of extending the prison wall, was transferred to the fund for building an addition to the shop used for the manufacture of agricultural implements. This, in addition to the two thousand dollars appropriated for the same purpose in the section above quoted, has been used for the purpose for which it was intended. The shop is so nearly completed that a portion of the lower floor is occupied, and the appropriation is sufficient to complete it. No improvement in the shop accommodations of the prison was so greatly needed as this. The additional room, the improved ventilation, and other conveniences, we believe, will contribute *Up to the health of the convicts, as well as add to the manufacturing of the contractors.*

The two new boilers have been purchased, are on the grounds, and the work of setting them is well under way. To make room for these boilers, in addition to the two now in use, it became necessary to enlarge the building in which they are placed, and in consequence the work is not as far advanced as we had hoped it would be. The work will, however, be completed and the new boilers in use in early winter. In connection with the change in the location of the boiler room, it became also necessary to change the location of the washing and drying department. New washing machines of the most approved pattern and a mangle have been purchased, and it is intended that this department shall be as near perfect as it can be made, and a very great improvement on what we have heretofore had in use. It is a matter of true economy that the prison should avail itself of every really valuable improvement in this direction. The washing of the clothing and bedding for 800 men has much to do with the durability of the articles used, and consequently with the cost of sustaining the prison.

In accordance with the provisions of the above act, making a conditional appropriation of ten thousand dollars for the purchase of land, the owners of the land early in the season entered into a contract of sale, with "sureties satisfactory to the Governor and Board of State Auditors." A competent person was thereafter employed to explore for coal on the land the purchase of which was contemplated. This examination was continued for several weeks. The exploration was so favorable that the party so employed reported to the Governor and Board of State Auditors that "coal in paying quantities had been found on the premises." The Board of State Auditors were so well satisfied of the truth of this report that in due time they certified to the Inspectors of the prison that "coal in paying quantities had been found on said premises, and that it was advisable to purchase the same." The signature of the Governor is not yet attached to this certificate. When this is done, as it probably soon will be, the necessary papers will be perfected and the purchase made complete. It was wise in the Legislature to authorize this purchase to be made by the Board of State Auditors rather than by the Board of Prison Inspectors. The manner of the purchase will disarm any criticism that might otherwise be made, and precludes the possibility that any partiality could induce the purchase unwisely, or any prejudice prevent, if it should appear to be for the best interest of the State.

It is the opinion of the expert who made the exploration that 25,000 tons of coal are accessible on the premises. If this is so, there can be no question as to the value of the purchase. The sum saved, if only a sufficient amount is mined yearly for prison consumption, will be largely in excess of the interest on the cost. On a portion of the land there is a large quantity of stone that can be quarried to advantage, and which has an actual cash value. In fact it was principally from this land that the stone was obtained for building the wings to the prison, and also the old wall. The remainder of the land can be profitably used for agricultural and horticultural purposes.

The smaller sums appropriated for a hog-pen, for new windows in the west wing, and for new locks on one cell block have not yet been used. The work will be done as early as possible in the coming year. The amount appropriated is less than the needs of the prison really required for these purposes, but by doing the work mostly by prison labor, we can secure greater results with the means at our command than if free labor was employed. Although a longer time will be required in which to make the improvements if done by prison

labor, yet we believe this to be the correct policy, and that true economy requires us to take this course.

#### EAST WING ADDITION.

The addition to the east wing of the prison has been completed and occupied since our last report. This addition is in all respects a great improvement, and in contrast the old cell blocks seem more inadequate than before. Whenever the Legislature shall think it proper to rebuild the old cells to correspond as far as it seems best with the new ones, the prison will be nearer what such an institution should be. There are 36 cells in this addition, with space for another tier of 12, making 48 in all. These 12 additional cells we hope to be able to construct in the near future. A sufficient amount of the appropriation remains unexpended to do this.

#### NUMBER IN PRISON.

The number in prison on the 1st day of October, 1878, was .....	804
Admitted during the year .....	207
<hr/>	
Whole number in prison during the year .....	1,074
Discharged by expiration of sentence .....	247
Death .....	6
Pardoned by Governor .....	14
"    " President .....	3
Released by court .....	7
Transferred to Ionia S. H. of C. ....	18
"    " Detroit S. H. of C. ....	2
<hr/>	
Whole number leaving the prison .....	297
<hr/>	
Remaining in prison on the 1st day of October, 1879 .....	777
<hr/>	

A smaller number by 27 than at the commencement of the year. Twenty, however, were transferred to Ionia and Detroit.

The following shows the number in prison on the first day of each month of the year:

October, 1878 .....	804	April, 1879 .....	793
November, " .....	803	May, " .....	793
December, " .....	783	June, " .....	787
January, 1879 .....	799	July, " .....	700
February, " .....	799	August, " .....	784
March, " .....	802	September, " .....	776

We do not infer from this statement that there is to be any permanent decrease of the population of the prison. Whether this will be so or not, time can alone determine. We think, however, there are indications in the opposite direction, and that the average number of convicts will be materially larger in 1880 than in 1879, and larger than any previous year, not counting those transferred to other prisons.

#### COST PER MAN.

The average number in the prison for the year was 792; the whole expense

of sustaining the prison for the same time was \$84,095.81, which is a fraction over \$106 for each man for the year. The items that go to make up the cost of keeping the convicts per man, including the cost of food, clothing, salaries, and all other expenses, will be found in detail in the Warden's report.

#### BROOM MANUFACTURE.

The manufacture of brooms in the prison was instituted when it was very difficult to find sufficient profitable employment for our men. After the panic of 1873 the business men of the country were not inclined to undertake new enterprises. Owing to the termination of some contracts that were not renewed and the failure of others, a large number of unemployed men were upon our hands, and although our efforts were repeated and continued, we found it impossible for the time to contract for the labor of these men. It seemed to us important that some regular labor should be provided in some other way than by contract. After investigating the matter as far as we were able, we decided to commence the manufacture of brooms. This industry seemed to present many advantages over most kinds of mechanical labor. A minimum amount of mechanical ingenuity is required, and it involves the use of a comparatively small amount of capital for machinery, etc. It seemed to possess another important advantage. The work is light, requiring the exercise of very little physical strength; and as a consequence the labor of old men, and of those who are comparatively feeble and who could not do a full day's work on a contract, could be made available in contributing something towards their own support. Such men we have always with us. We commenced the manufacture early in the year 1876, and carried it on with a fair degree of success until the close of the year 1878. At that time we received a proposition from Mr. George B. Wetherbee of Detroit, who was familiar with the quality of the goods manufactured, and who had for some time then past purchased the larger proportion of our products. We accepted his proposition, and entered into a contract in which we agreed to manufacture the goods for him alone, he furnishing stock and all materials, a foreman to have charge of the business and to pay us an agreed sum per dozen for the work. This arrangement has operated well so far. It requires no investment of capital on the part of the prison, and involves no risk of losses by bad sales, and in all respects we think it an advantageous contract.

The profits of the broom shop for the year 1879, most of the time under this arrangement with Mr. Wetherbee, were \$4,500. The business now being well established, the superiority of the article manufactured being widely known, particularly in the eastern market, the indications are that the demand will be greater than we can supply, and that the profits will be larger for the next year, if the arrangement is continued with Mr. Wetherbee.

#### COAL.

In our last report we spoke of a new sewer then in progress of construction, and of the stone and coal developed. The Legislature having taken from us the appropriation for extending the prison wall, we have not pursued the quarrying of stone to any great extent, as the demand in the market is not of sufficient importance at present to justify it to the neglect of other work. But with the limited appliances at our command, the mining of coal has been continued, primarily in reference to our own wants. It was soon found that if the mining was continued in a direction away from the prison the vein

would soon lead beyond the prison grounds. A suggestion of this fact being made to the prison committee of the two houses of the last Legislature, and as a result of a personal examination by the members of these committees, a conditional appropriation was recommended for the purchase of more land. This recommendation met the approval of the Legislature, and a bill was passed in accordance with such recommendation, making an appropriation the terms and conditions of which are given in another part of this report. If the purchase shall be consummated there will be no obstacle in the way of the continued mining of coal, and we think to the great pecuniary advantage of the prison. With better appliances and more systematic operation, a much larger amount of coal can be raised with the same force of men than has hitherto been done; and yet, although worked to a limited extent, it has proved one of our most profitable industries.

The men employed are not usually those who would be most useful in other departments of prison work. In fact the larger number would not be available on contracts at all. They are not miners, and any expertness they may acquire must be learned, prompted by none of the motives that would induce a free man to strive to excel. From October 1st, 1878, to September 30th, 1879, there was taken from the mine by convict labor 2,191 774-2000 tons of coal. This was worth, and would have cost the prison had it been purchased, \$2.25 per ton, amounting to the sum of \$4,930.62. It has cost the prison for tools, fuel, lights, timber for props, and other matters essential to the pursuance of the business, the sum of \$125.53. The balance, \$4,805.09, should be credited to the account of prison labor. It is very certain that the men employed in this work would not have earned the same amount of money in any other labor on which they could have been employed. When we take into consideration the fact that the fuel expense of the prison is about \$5,000 per year, the importance of the coal question will fully appear. If it should be thought that the surplus of earnings over expenses should not all be credited to convict labor, it may go as interest on the investment in the property. As near as we can estimate, the number of days' work performed in mining coal by convicts who were considered able to do a full day's work were about 1,500; the number of days by those who could do one-half day's work or less, about 800. Crediting

For the able-bodied men fifty cents a day, their earnings would be.....	\$750 00
For the others twenty-five cents a day.....	200 00
Total .....	<u>\$950 00</u>

The amount of coal taken from the mine as above is 2,191 774-2000 tons.

This at \$2.25 per ton is .....	\$4,930 62
Cost of mining tools, etc.....	\$125 53
Convict labor.....	950 00
	<u>1,075 53</u>
Balance .....	<u>\$3,855 09</u>

Or if we estimate the amount of convict labor at nineteen hundred full days' work, and the outside expenses for tools, etc., at \$125.53, the statement would *be this*:

Value of coal mined .....	\$4,930 62
Incidental expenses.....	125 53
Value of coal above incidental expenses .....	<u>\$4,805 09</u>

Dividing this by 1900, the number of full days' work gives as the earnings of the convicts two dollars fifty-two cents and a fraction each per day.

## APPRAISAL.

The real estate on the 1st of October, 1879, was appraised at....	\$527,064 10
Personal property.....	\$41,736 98
Cash on hand.....	5,029 61
	<u>46,766 59</u>

Total .....	\$573,830 69
-------------	--------------

The 1st of October, 1878, the appraisal was as follows:

Real estate....	\$506,450 00
Personal property .....	45,661 33
	<u>\$552,111 33</u>

Excess in 1879.....	<u>\$21,719 36</u>
---------------------	--------------------

The excess comes from the expenditures of cash appropriations of .....	\$17,312 99
The balance the value of prison labor.....	3,301 11

The item of \$3,301.11 is considered by the appraisers as the actual value of the prison labor, added to the cash expenditures in the improvements made. If the prison labor had been actually charged at the average contract price per day, the amount earned would have been considerably larger.

The appraisers are men of sound judgment, of great experience,—one from each political party,—and we believe the appraisal to be an honest and just one. While the real estate is appraised higher, it will be seen that the personal property is less than the year previous. It is impossible that there should be the same amount of material, cloth, kitchen stores, etc., on hand at the commencement of every year; therefore the appraisal of personal property will necessarily vary from year to year.

## LAND PRODUCTS, ETC.

The land belonging to the prison is being utilized. A large proportion of it was formerly a swamp. The stumps and roots have been taken out, the land drained, and several acres have produced crops, and with the cultivation now given it, is remarkably productive. When all the land not needed for other purposes shall be in a condition to cultivate, its productions will go far towards supplying the prison with many articles that it would otherwise be necessary to purchase. The small portion of the land in crops the last year produced 739 bushels of potatoes, 72 bushels of turnips, 125 bushels of beets, 268 bushels of onions, 3,778 heads of cabbage, 56 dozen sweet corn, 2½ tons of hay, one acre of rye, one acre of corn, 1½ acres of oats; the whole of the value of \$525.

The number of hogs raised and slaughtered during the year was 198, of the aggregate weight dressed, of 49,008 pounds. Of this there was 27,826 lbs. of clear pork, 11,106 lbs. of rough pork, 6,398 lbs. of ham, 3,679 lbs. of leaf lard, 1,113 lbs. of other lard. Saying nothing of the cost of producing the pork, it is much superior in quality to what can usually be purchased in market, and is much more profitable for consumption. This has been fully tested.

#### PRISON REFORM, ETC.

Of the moral condition of the prison and of the question of the reform of its inmates, we would like to make a more flattering report. If all is not accomplished that we could wish, it is not for the want of earnest desire and painstaking effort in the right direction. The labors of the Chaplain are faithful and wise, are seconded by all having authority in the prison, and the result is good, not evil.

The great question of prison discipline and prison reform opens a field for discussion too wide to enter upon here. The ideal prison is not yet in practical operation. With all the study, the thought, and the experience of the best minds of the country upon such matters, it would be strange if the prisons of the present day were not an improvement upon those of the past. Yet the different theories advanced and the different opinions expressed on the subject of prison organization and prison management shows that there is no mathematical certainty demonstrating the perfect way. Whether physical punishment should be inflicted at all, and if so, in what cases; whether the food and clothing shall be of the best; whether the labor of the convicts should be let to contractors; whether long or short sentences are most conducive to public safety and to the reform of the prisoner; whether solitary confinement, or the aggregation of all in one family, best subserves the object of imprisonment,—these and many other questions relating to prison management are agitating the public mind.

But perhaps one of the most important questions, if not the most important of all, is whether the admission of the lowest, the vilest, and most brutal of the criminal class into the prison family, without classification, with no line of demarcation in treatment and discipline between them and those whose mental and moral organization is of a higher and finer type, whose crimes are not so heinous, and whose moral natures are not wholly perverted; whether, under the depressing influences of their associations, the tendency is not, and the result probable, to sink the highest to the moral level of the lowest, instead of elevating the lowest to the level of the highest. Under the present system of prison organization, can this be prevented? and if so, in what way? If it cannot be, and if there is a liability, if not a probability, that the convict in his prison-life will be made worse instead of better, it is evident that the prison of the future should be, and must be, different from that of the present.

W. S. WILCOX,

L. W. LOVELL,

A. A. BLISS,

*Inspectors.*

# SUMMARY OF INVOICE SEPT. 30, 1879.

Real estate and buildings.....	\$527,064 10

MICHIGAN STATE PRISON, }  
 Jackson, October 7th, 1879. }

Ethan H. Rice and Sewall S. Vaughn, having been appointed for that purpose in the manner prescribed by law, have appraised the above schedule of real and personal estate of the Michigan State Prison, and being duly sworn depose and say that they have appraised the said real estate at a valuation of five hundred and twenty-seven thousand sixty four dollars and ten cents, and that they have appraised the said personal estate at a valuation of forty-one thousand seven hundred and thirty-six dollars and ninety-eight cents, or at an aggregate valuation of five hundred and sixty-eight thousand eight hundred and one dollars and eight cents, and that such appraisal is correct and just, according to their best knowledge and belief.

ETHAN H. RICE,  
 SEWALL S. VAUGHN.

Sworn and subscribed before me this 7th day of October, 1879.

FRANKLIN S. CLARK,  
 Notary Public, Jackson County, Jackson, Michigan.

# WARDEN'S REPORT.

WARDEN'S OFFICE, }  
MICHIGAN STATE PRISON, }  
*Jackson, September 30, 1879.*

*To the Board of Inspectors:*

The Warden submits the following report of his operation and management of the affairs of the Prison during the twelve months from October 1st, 1878, to September 30th, 1879:

The appraisers' valuation of the real estate and personal property of the Prison this day is—

Of Real estate.....		\$527,064 10
Personal property.....	\$41,736 98	
Add cash on hand.....	5,029 61	
		46,766 59

Aggregate September 30, 1879.....		\$573,830 69
The appraisers' valuation September 30, 1878, was—		
Of Real estate.....	\$506,450 00	
Personal property.....	45,661 33	
		552,111 33

Showing an increase in valuation over that of last year of..		\$21,719 36
--	--	-------------

The real estate is appraised to-day at.....		\$527,064 10
The real estate was appraised September 30, 1878, at.....		506,450 00

Increase over that of September 30, 1878, of .....		\$20,614 10
--	--	-------------

The improvements during the year to the real estate, which have been appraised as above at \$20,614.10, were made by expenditures as follows:

By expenditures from legislative appropriations....	\$17,312 99	
expenditures from prison earnings.....	3,301 11	
		\$20,614 10

## IMPROVEMENTS.

The improvements which enter into the increased valuation of the Prison property consist of additions to the buildings and improvement of Prison land.

## ADDITION TO EAST WING.

Of the amount appropriated by act No. 166, laws of 1877, there has been expended \$6,310.62, together with \$900 from Prison earnings, giving for expenditure on account of this building during the year 1879, \$7,210.62. The amount appropriated by said act for this work is \$16,000, of which there has been expended to this date \$14,133.14. In addition to this there has been expended from Prison earnings \$1,900.

## EXTENSION OF PRISON WALL.

The act above cited appropriated \$5,535 for extension of the Prison wall. By act No. 49 of 1879, \$5,000 of this amount was "transferred to and made available for the purpose of building an addition to the shop used for the manufacture of agricultural tools." Prior to such transfer work had been commenced on the wall extension, and expenditures made amounting to \$191.89.

## NEW SHOP.

The Legislature of 1879, by act No. 123, appropriated \$2,000, with the \$5,000 transferred as stated in the preceding paragraph, for an addition to the shops used by the agricultural tool manufactory, of this amount there has been expended to this date \$6,534.22. The shop is nearly completed, the lower floor being now occupied by the contractors. This building is one hundred and seventy-five feet by forty feet, and two stories. It furnishes a much needed addition to the shoproom occupied by the contractors, and gives them better facilities for their work. But its greatest benefit will be found in the better health of the convicts, who, through this increased space, are somewhat relieved of the oppressive heat of shops overcrowded with furnaces.

## NEW BOILERS.

The Legislature of 1879 also appropriated \$5,000 for the purpose of supplying new boilers and repairing and resetting those now in use. Of this sum there has been expended to this date \$2,893.92.

## APPROPRIATION OF 1869.

On account of the appropriation of 1869 there has been expended during the year \$1,353.95.

## APPROPRIATION OF 1877.

Act No. 166, 1877, authorized the Board of Inspectors to apply any unexpended balances not expended for the purposes for which they were appropriated to any of the objects named in this bill. In accordance with such authority the unexpended balances of all the other amounts have been transferred and added to the balance of the appropriation for building an addition to the east wing of the Prison. The unexpended balances so transferred are:

	Am't Appro'ted.	Am't Used.	Am't Transfer'd.
From Addition to wagon shop.....	\$965 00	\$565 89	\$399 11
Rebuilding and repair'g coopershop, 3,000 00		1,314 61	1,685 39
Addition to engine building.....	6,000 00	5,262 83	737 17
Extension of Prison wall.....	535 00	191 89	343 11
Total of unexpended balances transfer'd to east wing appro'tion...			\$3,164 78
To which add am't of east wing extension appropriation unexpended			1,866 86
Giving for amount of appropriation of 1877 unexpended.....			<u>\$5,031 64</u>

## FINANCIAL.

The *net* earnings, as also the *net* expenses, of the prison for the year are given below:

*Earnings for the year, net:*

Convict labor .....	\$85,420 65
Support of U. S. convicts .....	1,221 98
Rent .....	100 02
Gate money.....	1,612 60

Total net earnings..... \$88,355 25

*Department Expenses, net:*

Warden's house.....	\$705 55
General office.....	356 82
Chaplain's department .....	1,474 48
Deputy Warden's department.....	117 64
Hall Master's department.....	2,521 81
Engineer's department.....	653 60
Steward's department.....	23,250 61
Engineer's department.....	7,090 45
Physician's department .....	2,044 12
Asylum department.....	799 28
Yard Master's department.....	1,219 90
Carpenter's department.....	5 19

Net expenses through departments ..... \$40,239 45

*General Prison expenses:*

Gas .....	\$998 00
Water rates.....	160 00
Insurance.....	24 00
Interest .....	486 47
Freight.....	242 34
Convict deposits.....	542 26
“ gratuity.....	1,294 73
Salaries .....	36,508 16
Repairs.....	2,323 19
Improvements .....	1,201 70
Expense of appraisement.....	50 00
Telegraphing .....	25 61
	<u>43,856 46</u>

\$84,095 91

*Earnings in excess of expenses of the year.....* \$4,259 34

The convict earnings, as stated, includes the convict labor covered by the appraisers' valuation of the improvements made during the year. The appraised value of this labor is \$2,099.21.

In the above statement of departmental expenses, the transactions through the several departments cover classes of expenses as follows, viz.:

*The Chaplain's Department* is charged with the cost of additions to and the expense and care of the convict library, with the cost of convict correspondence, as also the expenses incident to chapel exercises;

*The Physician's Department* is charged with medicines purchased, with hospital supplies, and with the food consumed by convicts off duty because of ill health or other bodily disability and by convicts employed in and about the hospital;

*The Hall Master's Department* has charge of that part of the Prison buildings occupied by the convicts not in hospital or asylum, and bears the expense of keeping the cells in order and supplied with beds and such other fixtures as are furnished for convicts' use in the cells; the cost of lighting the Prison is also an expense of this department, and to it is charged the soap and tobacco bought for use by convicts;

*The Engineer's Department* takes care of the steam heating apparatus, and machinery of the Prison, and is charged with the fuel used under the boilers;

*The Steward's Department* furnishes the rations for all convicts not fed from the hospital or at the asylum, and is charged also with the wear and loss in the kitchen and dining-room furniture and fixtures;

*The Clothing Department* is charged with the material bought for convicts' clothing and shoes; manufactures the clothing and shoes, keeps them in repair, and bears the expense of the laundry, of the convict bathing room, and of the convict shaving, as also of the wear and repair of the tools, furniture and fixtures of the department;

*The Yard Master's Department* bears the expense of keeping the live stock of the Prison, of the wear and repair of the wagons and other tools and appliances used in carrying on Prison work outside of the Prison yard, and also with the wood purchased, and with the handling and care of the same;

*The Carpenter's Department* is charged with the expense of the carpenter's shop, and with the wear and repair of the tools and fixtures used by the Prison carpenters;

*The Asylum* expenses cover the cost of warming the asylum building, of the food consumed by those confined therein, of their bedding, and of the wear and repair of the furniture and fixtures belonging to the building.

The gross purchase of supplies during the year; the gross cost of the several articles specified; the payments on account of the several articles, and the amount unpaid at this date on each, is given in the following statement, viz.:

## CONTRACTS FOR CONVICT LABOR.

The contracts for convict labor now in force are the same as at the commencement of the year.

The demand for convict labor during the later portion of the year has enabled the placing, under the several contracts, of all convicts acceptable and available for contract work, and so long as the present prosperous condition of business affairs continues the call for convict labor will continue equal to the ability of the Prison to supply.

The data of the several contracts now operative are tabulated below:

OF CONTRACTS IN FORCE SEPTEMBER 30, 1879.

CONTRACTORS.	Date of Contract.	Term of Contract.	Expiration of Contract.	Number of Convicts under each Contract.	Contract per Diem.	No. this day Employed by each Contractor.
Austin, Tomlinson & Webster Manufacturing Co.	Oct. 1, 1873	10 years	Sept. 30, 1883	50	1 00	134
Withington & Cooley Manufacturing Co.	July 1, 1878	10 years	June 30, 1888	150	50	177
Plingree & Smith	Jan. 19, 1878	5 years	Jan. 18, 1883	50	45	65
Satter Brothers	Oct. 18, 1875	5 years	Oct. 17, 1880	50	55	55
Schultz, Sattler & Co.	Oct. 1, 1877	5 years	Sept. 30, 1882	50	45	63

The "number of convicts under each contract" in the table above shows the minimum number required to fill each contract. In addition to this number there are at all times convicts temporarily in the employ of the several contractors on such terms and conditions as may be agreed to from time to time. Convicts so placed can at any time be declined by the contractor or withdrawn by the Prison authorities.

Below is given a detailed exhibit of the number of convicts employed by the several contractors and state assignments, showing for each class of convicts the days' labor performed, the days' labor lost and how lost, with the number of convicts unfit for duty by months and for the year:

CONVICTS ON PRODUCTIVE LABOR.

AUSTIN, TOMLINSON & WEBSTER MANUFACTURING CO.—Contract expires Sept. 30, 1883. Number of Convicts on the Contract on the first day of each Month; Number of Days' Labor Performed each Month by such Convicts, the Number of Days' Labor Lost each Month by "Unfit for Duty," and while "In Punishment;" also, Number of days lost by "Not at Work" on holidays and Sundays, during the twelve months closing Sept. 30, 1879.

MONTHS.	Number on Contract at Commencement of each Month.	DAYS' LABOR PERFORMED.						DAYS' LABOR LOST.

## YARD MASTER'S DEPARTMENT.

The Yard Master has an oversight of all the Prison work performed outside of the walls, and of some portion of that carried on within the walled enclosure. For the past season this department has mined the coal used in supplying steam for Prison use.

The live stock is in the care of this department. The table below furnishes a statement of the quantity on hand at the commencement of the year, the changes during the year, and the number of each kind at the close of the year:

LIVE STOCK.	Horses.	Mules.	Cows.	Hogs.	Chick- ens.
On hand Oct. 1, 1878 .....	4	2	3	341	29
Received during year .....			3	3	10
Total .....	4	2	6	344	39
Number sold during year .....			4	3	
Number died during year .....				5	
Number transferred during year .....				336	24
Total .....			4	344	24
On hand Oct. 1, 1879 .....	4	2	2		15

The quantity of forage purchased and used for the subsistence of the live stock during the year is shown below:

MONTHS.	Bushels Corn.	Bushels Oats.	Pounds Corn Meal.	Pounds Corn Bran.	Pounds Tanic Hay.	Pounds Wheat Straw.	Pounds Oat Straw.	Pounds Corn and Oat Meal.
On hand Oct. 1, 1878 .....		3	500	650	4000	2620		
Received during Year.

a This one (1) was sent by commutation of sentence, to the State House of Correction at Lansing (House of Correction for juvenile offenders),—name since changed to Reform School, under which title it is now known.

b One of these, Brown, on reconviction.—*vide supra*, p.

c Underwood, convicted murderer of the first degree, included also in this table under head "Life Solitary Committed." In *Underwood vs. The People*, 32 Mich., 1, the law (Laws of 1873, Act No. 138) under which Underwood was committed to prison was held to be in plain violation of the constitutional safeguards against restraints of personal liberty without due process of law, and Underwood was ordered discharged.

**Table No. 2.**—Showing the Total Number of Convicts received on Sentence from the United States Courts, the Number for each Year, the Number Discharged by Expiration of Term, by Pardon, by Death, and by Escape; the Number in at the beginning, during, and at the close of each Year, and the Number remaining September 30, 1879.

\* George Bishop, who was convicted of murder at the June term, 1866, of the Circuit Court of the United States for the Eastern District of Michigan, and sentenced to suffer death on the ninth day of the following October. This sentence was commuted by the President of the United States on the twentieth day of September, 1866, to "imprisonment for the term of his natural life, with hard labor, in the State Prison at Jackson, Michigan." Bishop died April 16th, 1870.

**Table No. 3.**—Number of Convicts Received on Sentence during the year closing September 30, 1879: Number sent from each County named, Crimes of which Convicted, and the Number Convicted of each Crime.

COUNTIES.	OFFENSES AGAINST PERSONS.																								OFFENSES AGAINST CHASTITY, MORALITY, AND DECENCY.			
	AGGREGATE.	Total against Persons.	Total against Chastity, Morality and Decency.	Total against Property.	Total Forgery and Counterfeiting.	Total against Public Justice.	Murder of the Second Degree.	Manslaughter.	Assault with intent to Kill and Murder.	Assault with intent to Murder.	Assault with intent to commit Murder.	Assault and Robbery, being armed with a dangerous weapon, and inflicting a wound with same weapon.	Highway Robbery.	Robbery.	Rape.	Assault with intent to commit the crime of Rape.	Assault with intent to commit a Rape.	Assault with intent to Rape.	Assault with intent to Maim.	Mayhem.	Abduction.	Adultery.	Bigamy.	Fornication.	Incest.

#### OFFENSES AGAINST LIFE.

There have been twenty-three persons received at this Prison during the year under convictions of offenses against life. The offenses and the number for each offense is as follows :

Murder of the second degree.....	7	
Manslaughter .....	4	
		11
Assault with intent to kill and murder.....	2	
"    "    "    " murder.....	6	
"    "    "    " commit murder.....	3	
Assault and robbery, being armed with a dangerous weapon and inflicting a wound with same weapon .....	1	
		12
Total commitments during the year.....		23

The following table shows the number of convictions for offenses against the lives of persons since the organization, January 1, 1839, of the Prison, to this day, arranged under the general heads of "Murder of the first degree," "Murder of the second degree," "Murderous assaults," and "Manslaughter:"

YEARS.	OFFENSES.				
	Total for each Year.	Murder of 1st degree.	Murder of 2d degree.	Murderous Assaults. α	Manslaughter.
	519	92	97	233	97

1878.....	27	6	4	10	7
1879.....	23		7	12	4

α In the column of "Murderous Assaults" of the above table are included forty-three who also appear elsewhere under other titles of offenses. They are brought into this table because one of the offenses of which they were convicted and sentenced was against life. The years in which the forty-three were sent and the number sent each year are as follows: 1843, 3; 1850, 1; 1852, 1; 1854, 1; 1855, 1; 1856, 1; 1857, 4; 1858, 1; 1860, 5; 1861, 1; 1865, 1; 1866, 3; 1868, 1; 1871, 5; 1872, 1; 1874, 1; 1876, 5; 1877, 1.

The name, age, year of commitment and county from which sent, are given below of all persons convicted of "Murder in the first degree," or who have been sentenced to "Solitary confinement at hard labor in the State Prison for life," or some portion of whose sentence is "Solitary confinement," and committed to this Prison since March 1, 1847:

No.	NAMES.	Age.	COUNTY.	Prison Year.	REMARKS.
1	Wm. Henry Anderson	21	Wayne	1848	Died, 1858.
2	John Findlay	39	Oakland	1848	Died, 1863.
3	John Winters	47	Calhoun	1848	Escaped, 1867.
4	John Marsh	31	Wayne	1848	Insane.
5	Harvey Billington	33	Wayne	1849	Died, 1859.
6	Joseph Rabedean	19	Wayne	1851	Pardoned, 1876.
7	William Eastman	27	Genesee	1851	Died, 1873.
8	Mary Eno	23	Genesee	1852	Died, 1858.
9	Gabriel Lappam	35	Wayne	1852	Died, 1870.
10	James Hitchcock	32	Ingham	1853	
11	John M. Reynolds	26	Van Buren	1853	Died, 1871.
12	Amos White	60	St. Joseph	1854	Died, 1858.
13	James J. R. Clement	34	Allegan	1854	Died, 1864.
14	John R. Webster	44	Macomb	1854	Died, 1871.
15	David Foster	38	Oakland	1854	Insane. Pardoned Aug. 21, 1877.
16	John F. Myer	22	Oakland	1855	Died, 1869.
17	Amasa Kenyon	55	Shiawassee	1855	Died, 1856.
18	Samuel Ullum	44	Kalamazoo <sup>1</sup>	1855	
19	James E. Cromwell	24	Monroe	1855	Died, 1868.
20	Jordan Turpin	45	Ottawa	1855	Died, 1868.
21	Mary Brooks	24	Eaton	1856	Pardoned, 1870.
22	DeWitt C. Horton	32	Calhoun	1856	Pardoned, 1870.
23	Frederick Haynes	29	Wayne	1856	Escaped, 1857.
24	William Young	27	Ottawa	1857	Died, 1870.
25	John Powers	21	Ottawa	1857	Pardoned, 1864.
26	William Potter	30	Wayne	1858	Dis. by Habeas Corpus, 1858. Reconvicted of murder in 2d degree and returned for 10 years from Feb. 13, 1868.
27	Joseph Dukett	28	Sanilac	1858	
28	Robert Tulley	21	Oakland	1858	Dis. by order Sup. Court, 1859.
29	John Tulley	19	Oakland	1858	Dis. by order Sup. Court, 1859.
30	John Dillon	26	Barry	1858	Dis. for new trial, 1860; not returned.
31	Robert Fuller	18	Washtenaw	1859	Dis. by reversal of sentence, 1860. Reconvicted of burglary and larceny and sent back for 30 years from June 11, 1859. Pardoned January 23, 1863.

The act for the government of the State House of Correction at Ionia names twenty-five years as the maximum age at which offenders may be sentenced to that institution. The following table shows the number of convicts received here during each of the last seven years of the age limited by the said act, and also of those above that age. The convicts are also grouped in two periods, one of which includes those of the age of thirty or under, the other those above thirty:

	NUMBER.				Total of all ages.	PER CENT.			
	25 and Under.	26 and Over.	30 and Under.	31 and Over.		25 and Under.	26 and Over.	30 and Under.	31 and Over.

" " " 1879.....	270	51.11	36.67	06.67	05.55

## MORAL HABITS.

The following summary gives the statistics bearing upon this point as gathered at the Prison during the last seven years, and shows the number of temperate, intemperate, and moderate drinkers received during each of the years, as also the per cent of each class to the whole number received during each year, and for all of the years:

	NUMBER.			
	Total.	Temperate.	Moderate Drinkers.	Intemperate.
For the seven years.....	2,376	680	1,050	646
Year ending Sept. 30, 1873.....	287	130	111	46
" " " 1874.....	310	115	132	63
" " " 1875.....	390	88	201	101
" " " 1876.....	357	96	205	66
" " " 1877.....	408	109	170	129
" " " 1878.....	354	96	126	132
" " " 1879.....	270	56	105	109
	PER CENT.			
	Total.	Temperate.	Moderate Drinkers.	Intemperate.
For the seven years.....	2,376	28.63	44.19	27.19
Year ending Sept. 30, 1873.....	287	45.29	38.69	16.02
" " " 1874.....	310	37.10	42.58	20.33
" " " 1875.....	390	22.50	50.63	26.87
" " " 1876.....	357	24.30	57.25	18.44
" " " 1877.....	408	26.65	41.80	31.54
" " " 1878.....	354	27.12	35.00	37.88
" " " 1879.....	270	20.74	38.89	40.37

## EDUCATIONAL CONDITION.

It appears from the record that of the two hundred and seventy convicts received during the year,

221, or 81.85 per cent of the whole number, can read, write, and cipher.

11, or 04.07 per cent of the whole number, can read and write.

25, or 09.26 per cent of the whole number, can read only.

13, or 04.82 per cent of the whole number, are wholly illiterate.

A summary covering the same items for the seven years is given below :

	No. for 7 years.	1873.	1874.	1875.	1876.	1877.	1878.	1879.
Total for the seven years.....	2,376	287	310	390	357	408	354	270
The number who read, write, and cipher.....	1,593	110	161	281	263	308	249	221

In submitting his report, in which he has intended only to present briefly the operation of the Prison during the year closing with this date and the statistics of the same period required by law to be annually published, the Warden desires to acknowledge his obligation to yourselves for courtesies extended to him during the past, and also for the aid rendered him in the discharge of his duties by his faithful and painstaking subordinates.

WILLIAM HUMPHREY,

*Warden.*

## CHAPLAIN'S REPORT.

*To the Board of Inspectors, Michigan State Prison :*

GENTLEMEN:—The following is my report for the year ending September 30th, 1879:

### STATISTICS.

#### RELIGIOUS MEETINGS.

Lord's day—regular services .....	52
Sermons by Chaplain.....	40
Sermons by others.....	12
Prayer and conference meetings.....	114

#### OTHER MEETINGS.

Holiday exercises.....	4
------------------------	---

#### SUNDAY SCHOOL.

Number of sessions.....	52
Number of classes.....	22
Average number of scholars .....	133

Reading and spelling classes.....	5
Average number of scholars.....	22

Arithmetic classes.....	6
Average number of scholars.....	20

Writing classes.....	1
Number of scholars.....	22

#### *Bible Study.*

Number of classes.....	12
Average number of scholars.....	71

#### LIBRARY.

Number of circulating volumes.....	2,891
“ school books.....	475
“ bibles and testaments.....	737
“ prayer books.....	157
“ hymn and tune books.....	801

*Library Expenditures.*

Purchase of bibles.....	\$112 50
Rebinding of worn volumes, 297.....	
Newly-bound magazines, 5 vols.....	
Contributions to fund for purchase of papers for life men.....	\$15 78
Balance from last year.....	4 69
	<hr/>
	\$20 47
Expended during year.....	17 85
	<hr/>
Balance on hand at close present year.....	\$2 62

## CONVICT CORRESPONDENCE.

Number of letters mailed.....	9,918
Greatest number per month.....	915
Least number per month.....	770
Average number per month.....	827
Number letters delivered.....	11,524
Greatest number delivered per month.....	1,047
Least number delivered per month.....	905
Average number delivered per month.....	960

*Letters Retained.*

Going out of prison.....	605
Coming into prison.....	298
	<hr/>
Total retained.....	903
Number written and copied on convict business.....	94
Number of letters of inquiry answered and copied.....	127
Average of letters written and mailed per man.....	12.30
Average received and delivered per man.....	14.60
Total mailed and delivered.....	21,447
Total average mailed and delivered.....	28.50
Total of all letters handled during year.....	22,566
Total average per man.....	29.20

## VISITS AND CALLS.

To Hospital—Regular.....	163
“ “ Special.....	39
	<hr/>
Total to Hospital.....	202
To cells—Regular.....	751
“ “ Special.....	243
	<hr/>
Total.....	994
Special interviews.....	257
Visits to asylum.....	37

The specifications and figures given above indicate the nature and the methods of the work of the chaplaincy the past year; and it is hoped the report is acceptable.

Little, if anything, more need be presented or said. A few words, however, may be added. Of the regular Lord's day services in the chapel nothing can reasonably be said; only, those services appear to have been acceptable to a large proportion of the men. They have spoken occasionally of the preaching, and about as often of the services of the choir.

In the prayer and conference room something more noticeable and positive appears. About one-half of the year four social meetings have been held each week. In all these meetings a decided and evangelical interest has been manifested, and with very few exceptions more men have been anxious to pray or speak or ready to do so than could have time for the exercise.

Of the order and propriety of conduct in these meetings, it may be said, they would not suffer by comparison with similar meetings outside of prisons.

Of the "results" of gospel service and social worship, a cautious recognition of the wisdom and power of His truth and grace will bear witness to the conversion of men to God. How frequently, or how many, during the year should not be answered until time and prisons shall be no more—when God makes up "the slate," and declares it, by placing those who have believed at the right hand of Christ in that day.

#### THE SCHOOL

has been better this year than before. Work, and better work, is being done. The number of classes has increased by two; the average of attendance by thirty-eight. The number of classes and average attendance might have been, and should now be, much larger. The working character of the school has evidently improved.

Of the influence and results of the school it may be said, they are so far encouraging as to justify the thought and the call, for a larger, and a well-arranged, and a thoroughly disciplined prison school. There ought to be such a school: not more for normal instruction in the common branches of secular education than for prison discipline and the correction and culture of individual character.

#### THE LIBRARY

has received no addition of new books during the past year except those of sacred titles. It was thought the rebinding of the better books among those most frequently called for, would be sufficient for the time. The report therefore shows a decrease in number of volumes by as many as have been worn out and condemned.

#### CONVICT CORRESPONDENCE,

as shown by this report, does not vary in any suggestive degree from that of last year. The average number of out-going letters differs by only two per month. In the number of ingoing letters the difference is slightly increased.

Convict correspondence, though involving care, labor, and patience, is an unfailing source of comfort to the prisoners, and an open means for the transaction of legitimate and necessary business. On the part of the State this privilege is an intelligent, a kindly, and an essential provision for convict life.

If anything of legal providing will carry a criminal back, take him home in thought and in heart, and anchor him in the harbor from which he sailed, this correspondence with friends, with love and with home, will do that thing for him. One letter each four weeks is the rule, and for the purpose of friendly or family correspondence is quite frequent enough. Each prisoner, except those in solitary confinement, has the privilege of writing. There are a few men, however, who seldom, if at all, during their term, write a letter. These cases arise no doubt from various causes. And when they appear as a criminal measure, they present a much better expedient than many others to which these men, for personal safety, or further vicious pursuit, feel compelled to resort.

This report shows the average number of letters mailed per man to be twelve and thirty one-hundredths, showing a careful effort to make the general rule control the correspondence—numerically.

The number of official calls, and special interviews, as shown above, is a little in advance of those reported last year. But those figures ought to be larger than they are, and the report for the coming year will undoubtedly show an advance in this respect, to say the least. Those figures should show a practical advance in prison work. Indeed, such is the present arrangement, character, and management of gospel work in the prison, that the Chaplain could employ all his time in that service, and ought to be left to that work exclusively. It is evident gospel work is a suitable and a remunerative part of prison management.

I have little more if anything further to say in this report. Talking or theorizing involves an unwise expenditure of time, when the working of a prison is to be considered, and the best thing done for the State, and for the convicts who may be serving time in the prison. When these things are to be done, brain, and heart, and nerve must give their time and their culture to the work.

And in the gospel assignment of prison organization, truth and grace, and trust in God, and sanctified common sense, and a self-sacrificing spirit; are essential, and *divine appointments*, with sacred pledges of success.

I desire to express the wish that secular instruction could be given when, and as it ought to be—in the *six evenings* of the week—and thus leave, exclusively, the school of Lord's day morning to the undivided study of the word of God.

Gentlemen, I submit my report to you; gratefully expressing my thanks for the kindness, the courtesy, and the confidence, which has distinguished your care for this department; and for the consideration which has marked your personal intercourse with myself. My association and labor with *all* the officers of the prison has never been more pleasant, or more profitable, than during the past year.

GEO. H. HICKOX,  
*Chaplain.*

## PHYSICIAN'S REPORT.

RESIDENT PHYSICIAN'S OFFICE, JACKSON, MICHIGAN, }  
*September 30th, 1879.* }

*To the Hon. the Board of Inspectors of Michigan State Prison:*

GENTLEMEN:—The appended tables, which appear as summaries of the records of this office, comprise the report of the Medical Department for the year. I have nothing to add to this showing, except to place in this connection these few short statements, separate from the tables, and yet made up from the books. They relate entirely to the number of men who have lost time, etc., instead of days lost. The first relates to the whole number in Prison, those who received treatment, lost time, and the number under each class of sick, wounded, aged and infirm, other causes, and insane. This is also carried out, showing the number who have lost various amounts from five days to one year.

Total Number Confined During Year.	Number who Received Treatment.	Number who Lost Time.	MEMORANDA.				
			Sickness.	Wounds and Injuries.	Aged and Infirm.	Other Causes.	Insane.
1,074	918	583	509	105	-----	46	18

Number who Lost Time.	LENGTH OF TIME LOST.	Whole Time Lost.
273 lost	Five days or less.....	829
175 "	Five to twenty days.....	1,854
30 "	Twenty days to one month.....	754
48 "	One to two months.....	2,116
27 "	Two to four months.....	2,438
12 "	Four to six months.....	1,631
4 "	Six to eight months.....	811
3 "	Eight to eleven months.....	806
11 "	One year.....	4,015
583	Total.....	15,246

The second again shows how the men have been sick, etc., on the various assignments in the Prison, and also the total number of different men employed on each contract during the year.

## PRODUCTIVE LABOR.

Assign- ments.	No. of Differ- ent Men Employed.	Sickness.	Wounds and Injuries.	Other Causes.	Insane.	Different Men who Lost Time.	Per Cent Sick.
6 b	94	49	18	4	-----	52	.52
9	50	19	4	1	-----	20	.38
10	35	18	7	4	-----	21	.60
11	75	32	5	-----	1	86	.42
12	63	36	5	4	-----	34	.57
13	43	24	8	7	-----	30	.55
16	93	50	8	6	1	68	.51
17	75	42	3	1	1	44	.56
18	55	22	3	1	-----	25	.40
20	39	23	10	3	1	34	.48
21	72	41	4	1	-----	43	.56
19	89	51	5	1	-----	54	.57

## UNPRODUCTIVE LABOR.

1	65	13	2	1	-----	15	.20
3	21	11	-----	-----	-----	11	.52
5	66	17	-----	1	-----	16	.25
24	55	17	1	-----	-----	18	.30
25	33	2	-----	1	13	19	57.57
26	98	46	13	4	1	50	.43
27	31	13	3	-----	-----	14	.42
28	12	1	-----	-----	-----	1	.08
30	-----	32	3	3	-----	37	-----

The third again shows only the sick as it cannot be presumed that the locality in the wings can affect anything else. The aggregate appears larger than the 583 under sickness in first statement, but this is owing to transfers and also to the fact that I have shown each case as a new one every month, that is if a man has ague in January and again in February, he appears in this summary as two cases, or even if twenty days or more intervene I have generally counted it again, unless it appears a certain continuance of an old case. All continued cases, however, only appear once, even though they last through several months.

## LOCALITY OF SICK.

All other tables which last year were shown in the text are this year simply appended with the rest. I can only say that they preserve the same uniform average of previous years.

Thanking you for the continuance of the kindly courtesy which has always marked our intercourse, and publicly remembering the friendship and assistance of my fellow officers, I remain,

Respectfully yours,

EDWIN L. KIMBALL, M. D.,  
*Resident Physician.*

2000

ending September 30th, 1879.
